About Neuropsychology and Cognitive Health

The Neuropsychology and Cognitive Health program provides clinical services, education and training, and clinical research related to the assessment and treatment of memory and other cognitive abilities in older adults. Our program provides neuropsychological assessment, intervention, and consultation across Baycrest services and to external organizations. Our team includes neuropsychologists, social workers, administrative staff, as well as many volunteers and trainees. The mission of our program is to provide excellence and leadership in clinical neuropsychological services.

Our services are closely integrated with research and education. Our faculty are scientist-practitioners who contribute to the development and dissemination of clinical knowledge via clinical research, program evaluation, and the development of innovation. There is a strong emphasis on training future psychologists through practicum placements and our Predoctoral Internship Program in Clinical Neuropsychology, which is accredited by the

trainee. It is possible to combine elements of more than one emphasis, for example, a primarily neuropsychological assessment practicum with exposure to cognitive intervention, a primarily cognitive

About Holland Bloorview

Holland Bloorview Kids Rehabilitation Hospital is Canada's largest children's rehabilitation hospital focused on improving the lives of children and youth with disabilities. We are a global leader in applied research, teaching and learning, and client and family centred care. Our vision is to create the most meaningful and healthy futures for all children, youth and families. Holland Bloorview is fully affiliated with the University of Toronto and home to the Bloorview Research Institute. Services at Holland Bloorview include inpatient hospital care for children, outpatient assessment clinics, therapy programs and community outreach programs. We have a school on the premises that provides educational programming during inpatient stays in the hospital, as well as a school for families.

Student Practicum Training Opportunities in Psychology 2024-2025 University Health Network (UHN)

Princess Margaret Cancer Center | Toronto General Hospital | Toronto Western Hospital & Toronto Rehab

Clinical and research opportunities (unfunded) are available to Psychology graduate students and fellows interested in gaining experience with diverse patient populations on an individual, couple, or group basis. Please note that UHN does not have CPA or APA accreditation for Psychology practicum training at this time. A list of potential placement settings is provided below. Please contact the respective psychologist directly to learn more about their placement options, or for information about available practicum spots or the semester during which practicum placement is available.

!
!

Intervention: cognitive-behavioural, acceptance and commitment, and supportive approaches, primarily individual with some group work (i.e., co-leading/leading patient support groups)

Research: Psychosocial aspects of living with cancer as a young adult program

Number of practicum spots for Fall-Winter 2024-25 = 0; not taking student this coming year

ANESTHESIA & PAIN MANAGEMENT ; EMERGENCY

TRANSITIONAL PAIN SERVICE AND EHLERS-DANLOS SYNDROME CLINIC

This rotation offers a unique opportunity to train in **two** specialized health-psychology clinics: The Transitional Pain Service and the Ehlers-Danlos Syndrome Clinic. Time spent in each clinic will be determined in collaboration with the student, based on availability, clinic needs, and students' training goals.

Transitional Pain Service .

Population

!
!

EAHIN ; DISORDER PRO ; RAM; CENHRE : OR MENHA@ HEA@HH

Population: Adults with Anorexia Nervosa, Bulimia Nervosa, Other Specified Feeding and Eating Disorder (OSFED), and Avoidant/Restrictive Food Intake Disorder (ARFID), as well as comorbidities including Anxiety Disorders, Mood Disorders, Substance Use Disorders, Posttraumatic Stress Disorder, and Personality Disorders. This is an intervention and assessment practicum.

Clinical Intervention: Our program currently provides a full range of treatment intensities for adults with eating disorders. Our program provides cognitive behaviour therapy (CBT)-based treatments, and includes inpatient, intensive outpatient, and individual therapy services. Our services focus on evidence-based treatment and trauma-informed care. The practicum provides opportunities for training in individual and group CBT, and there may be opportunities for group DBT.

Clinical Assessments: The practicum provides opportunities for training in structured clinical interviewing and diagnostic assessment.

Research: Our program conducts research on the etiology and maintenance of eating disorders, treatment efficacy and effectiveness, prediction of relapse, relapse prevention. Research opportunities may be available as part of the practicum, but are not guaranteed.

Practicum Placements in Psychology and Neuropsychology

West Park Healthcare Centre offers practicum placements for students currently enrolled in accredited graduate psychology training programs. Students may choose from two placements, either the Neuropsychological or the Psychological stream or both.

About West Par_

West Park Healthcare Centre helps patients get their lives back by providing specialized rehabilitative and complex care after a life-altering illness or injury such as lung disease, amputation, stroke, traumatic brain injury, traumatic musculoskeletal injuries, and neurodegenerative diseases.

West Park is building a new hospital and transforming its 27-acre site into an integrated campus of care, enabling the

Students will learn to: a) conduct chart reviews and interview patients and family members to
